Playgroup for Infants From birth to 12 months (as of September 1st)

Our Infant Playgroup provides a sanctuary to young families. Parents and caregivers experience the joy of being with their babies while deepening intuitive knowledge about caring for infants and building a supportive community. Infants experience the loving presence of caregivers as they explore in a physically safe, emotionally nurturing, and sensorially rich environment. Weekly readings and / or discussion topics, which will draw on the insights of Waldorf Education and RIE (Resources for Infant Educators) Philosophy, help caregivers learn to encourage each child's own natural abilities, to discern when to intervene and when not to intervene, and how to effectively handle common challenges.

Kathy Kipp, Facilitator

We are thrilled to have Kathy Kipp leading Robin's Nest. Kathy comes from a family of educators and her own earliest childhood education was in a Waldorf-inspired school in Northern Germany. She holds a B.S. degree in Marketing, a B.A. degree in East/West Cross Cultural Studies and a Certificate in Youth and Theology from Princeton Theological Seminary as well as a California State teaching credential. She is the mother of four children, all of whom attended the Waldorf School of Orange County. Kathy was President of the Waldorf Parent Association for the school and active in Waldorf pedagogy for over ten years. Kathy is one of the founders of Sea Star Village and currently leads the Parent Discussion groups as part of the Bridge Playgroup program.
