Playgroup for Infants From birth to 12 months (as of September 1st)

Our Infant Playgroup provides a sanctuary to young families. Parents and caregivers experience the joy of being with their babies while deepening intuitive knowledge about caring for infants and building a supportive community. Infants experience the loving presence of caregivers as they explore in a physically safe, emotionally nurturing, and sensorially rich environment. Weekly readings and / or discussion topics, which will draw on the insights of Waldorf Education and RIE (Resources for Infant Educators) Philosophy, help caregivers learn to encourage each child's own natural abilities, to discern when to intervene and when not to intervene, and how to effectively handle common challenges.

Nola Casserly, Facilitator

We are thrilled to welcome back Nola Casserly, co-founder of Sea Star Village. In addition to being a licensed Marriage & Family Therapist, Nola is also a Waldorf trained early childhood educator, the founder of the popular "Conscious Mothering" series of classes in Newport Beach, CA, a speaker, author, and parenting consultant with a private practice in California. She is committed to helping families and individuals realize mental and physical well being and approaches her work from a depth perspective, addressing the foundation of legacy, trauma, and attachment patterns often at the root of client's symptoms. Nola holds a BA from Cornell University in Human Ecology and her Master's in Counseling Psychology from Pacifica Graduate Institute.
